Wetaskiwin Boy Winners Feted by Board of Trade

The December luncheon of the Wetaskiwin Board of Trade was held in the Driard Hotel on Monday evening, when Gordon Bellhorne and Theo Jevne, the two boys who brought distinction to this community by winning the Alberta swine judging competition, as well as standing third in the judging at the Royal Fair at Toronto, were guests of honor.

The principal speakers were Mr. Barbour, the superintendent of Swine Clubs in Alberta, and Mr. H. A. Craig, Deputy Minister of Agriculture.

The two boys briefly referred to their trip to Toronto, and thanked the Board for sponsoring the personal benefits throughout the organization. Mr. Barbour in his remarks referred to the difficulties he had in starting the swine clubs in this district some four years ago, but before leaving the field after two weeks work he had secured sixteen members. The interest had rapidly grown until in 1930 there were 37 members, and in 1931, 47 when two clubs were formed.

The club idea is now sponsored by a national council in Alberta, namely, grain, swine and cattle. Mr. Barbour who accompanied the eighteen boys from Western Canada to Toronto, said that they were all well behaved and were outstanding among the forty boys who assembled from all of Canada in that city. Alberta has more swine clubs than any other province and the final competition in Edmonton was very keen, as the Wetaskiwin boys were, more than three points ahead of their nearest competitor at any time. He stated that great credit was due Gordon Bellhorne, the youngest boy who went to Toronto, for the manner in which he and his team mate worked together and for the trouble he had gone to in procuring information about the swine industry.

Mr. Craig, Deputy Minister of Agriculture, complimented the Board of Trade on the splendid work being done, drawing particular attention to the development of agriculture in this community. There is a better feeling existing between the farmers and citizens here than in most places in Alberta. He also congratulated the boys on their outstanding achievement and stated that as a judge in the Edmonton competition, he soon realized that the Wetaskiwin judging team was the best in the competition, especially when it came to answering questions set by the Board. There are 36 swine clubs in the Province, from Peace River to Pincher Creek. There are 1190 clubs in Canada.

A Seed Judging Contest will take place at the World's Fair, Regina, in 1933, when \$2,500 in prizes will be awarded. The training for this event is more important than the money. We have our natural resources, but the best assets in the Province are the boys and girls who make the best citizens and contribute their best to the world. Mr. Craig complimented

Mr. and Mrs. Nels Linden on their splendid win in oats at the Toronto Royal Show, as it was a small achievement to be given 2nd prize in such keen competition. The only difference, between 1st and 2nd was possibly one kernel. Alberta won many prizes in Toronto and Chicago International this year, and the Province could have no better advertisement than exhibiting their stock and grains at these shows. Alberta was fast coming to the foremost rank in livestock, which gave him great reason to be proud and satisfied. This year, Alberta won 23rd championships, with a total of 236 prizes at the Toronto Royal Show, while at Chicago International, Herman Trelle won the Championship in wheat, as well as 3 first prizes and Nels Linden won second in oats.

Mr. Craig was of the opinion that the present depression was caused by over-production in agriculture and quoted figures to substantiate his statement. In 1930, there was an over-production of wheat, 540,000,000 bushels, and in 1931, this figure was increased to 574,000,000 bushels. Agriculture contributes two-thirds of the world's business and over production resulted in lower prices with less buying power and increased unemployment. But there was a bright side to the picture, and he referred to conditions from 74 years ago, which were similar to those of today, and the subsequent rally in business. The average price of wheat between the years 1896 and 1930 was \$1.73 1/4 a bushel, and in 1900 to 1922, \$1.23 1/4 a bushel. In thirty-five years the average price in Liverpool was \$1.34 1/4. This is encouraging, as prices have always returned. During the past forty years, trade has made substantial progress and we have built railways, highways, more comfortable homes with modern improvements. In conclusion, the Deputy Minister stated that he had "unbounded confidence in the country, and we were very fortunate in being situated in such a resourceful province as Alberta."

President V. E. Thompson who presided, appointed the following committees to recommend the 1932 officers at the next meeting: T. Torsen, H. R. French, R. M. Snyder, C. Isaacson and Roy Ballhorn.

The following resolution was adopted and copies will be sent to the Federal and all the provincial governments in Canada:

"We, the members of the Wetaskiwin, Alberta, Board of Trade, beg to submit the following resolution to the Government of the Dominion of Canada, and to each of the Governments of the nine provinces of Canada, for their serious consideration and quick action:

1. That whereas, our Canadian Governments, Federal and Provincial, are facing a very serious economic and social problems and responsibilities;

2. And whereas, we believe that the problems and responsibilities of Canadian Governments, Federal and Provincial, are but the problems of each of their loyal subjects, and lawful organization within the borders of our Canadian land;

3. And whereas, we know that the said problems and responsibilities have been; and are now being made more difficult of solution by the existing menace of a disturbing, alien Communistic element, perpetrated, organized, financially sustained and perpetuated by an alien government, and commonly known throughout Canada as the "Communist Party";

4. And whereas, it has been proven by a Canadian court, held by order, and in the name of his most Gracious Majesty, King George the Fifth, King of Great Britain, and Emperor of all the British Dominions, that the said Communist Party is an unlawful assembly or organization within our Dominion;

Therefore, be it resolved that we ask the Dominion and Provincial Governments to prohibit the name of any person representing or belonging to the said unlawful Communist Party, appearing on a ballot for any Municipal, Provincial or Federal election. And further be it resolved that we ask the Dominion Government to take immediate steps to end this said, existing menace, by increasing for an indefinite period, all Canadian, and deporting all alien Communistic agitators, or leaders.

Weddings

SAUNDERS-STONE

A quiet wedding took place recently at the home of Mr. and Mrs. Geo. Stone, Serpentine Road, Clayton, B.C., when their youngest daughter, Mary Margaret, was united in marriage to Percy T. Saunders, youngest son of Mrs. E. A. Saunders of England. The ceremony was performed by Rev. S. I. Green, assisted by Rev. Mr. Matthews.

The bride, who entered the room on the arm of her father, was charming in powder blue tulle. The bridesmaids wore white, with long sleeves, and the skirt fell in folds from the shirred yoke to the ankles. An edging of white silk ruffles about the cuffs and cape collar gave a touch of originality to the gown. She carried a bouquet of autumn flowers in shades of mauve, pink and white, with heather and fern, and was attended by her sister, Ethel Stone. The room was supported by Wilfred Stone.

The room was tastefully decorated with streamers in colors harmonizing with those of the bride's bouquet. The wedding cake, decorated in white and silver, and surmounted by a silver bell in a tiny silver arch, centred the table. A background of sweet briar in its autumn dress, made a pretty setting for the ceremony.

The happy couple were the recipients of a number of useful and beautiful gifts, and many expressions of good will and best wishes. They will reside at 475 West 10th, Vancouver, B.C., where the groom is engaged in the retail grocery business. The bride is a former Wetaskiwin girl, and has many friends throughout the district.

JOHNSON-ANDERSON

On Wednesday, December 9th, Isabel Lindsay Anderson, daughter of Mr. and Mrs. Albert Anderson, of Loughheed, was the wife of Leonard Howard Johnson, of Loughheed. The ceremony was performed in the Immanuel Church, where the bride was accompanied by Mr. and Mrs. Anderson left on the afternoon train for Calgary, where they will spend a few days, and later they will go to Wenden, B.C., for two months, after which they will return to their home in Loughheed.

RONNIE-KELEY

Immanuel Church was the scene of a quiet wedding on Saturday, Dec. 5, when Francis Emily Kelley became the wife of Joseph Leonard Ronnle, both of Wetaskiwin. The ceremony was performed by Rev. P. C. Wade. The couple were supported by Mr. and Mrs. Ernest Felling. Mr. and Mrs. Ronnle will reside in Wetaskiwin.

LIGHT AGENDA OF COUNCIL

MUN. DIST. MONTGOMERY

The regular meeting of the Council of the Municipal District of Montgomery No. 458, was held in the Council office on Saturday, Dec. 5th. All the Councilors were present.

After the adoption of the minutes of the last regular and special meetings the following correspondence was read and filed:

The Registrar of Estates of the Mentally Deficient, re Elmer Anderson.

Dept. of Agriculture re movement of families from Youngstown.

Advance-Rumely re Monarch Tractor maintenance.

Central Alberta Sanatorium re admission of Mrs. H. Dickau.

Wetaskiwin Hospital re unpaid accounts.

Department of Provincial Relief re Deitcher family. Letter to be replied to advising the claim.

Report from Drs. Shillaber and McColgan re medical examination of K. J. Deitcher.

Dpt. of Public Works re Plan No. 183. Moved by Coun. C. Johnson that this Council recommend that Road Plan No. 183 be cancelled. Carried.

Applications for Tax Consolidation from E. L. Graves and T. C. Olsen were received and accepted.

After the bills and paychecks were passed for payment, the meeting adjourned.

TRELLE WON EIGHT FIRST PRIZES AT CHICAGO

Herman Trelle of Alberta, is the first man to win three grand championships at the International Livestock Exposition in Chicago, Ill. He is now permanent owner of the Grand Grain Championship cup. He won first prize in each of the following classes: Wheat, peas, oats, early oats, timothy, rye and flax.

Hold Election for Mayor, Aldermen School Trustees

Nominations for the Municipal election in Wetaskiwin were submitted at the Council Chamber to J. E. Fraser, returning officer, on Monday, for the offices of Mayor, Aldermen, Public School Trustees and Separate School Trustees. As a result of the nominations, there will be an election on Monday next for Mayor, three Aldermen, and two Public School Trustees.

Those contesting the election are:

For Mayor: J. W. Somers, nominated by R. W. Manley and B. M. Parker.

Geo. L. Gotschall, nominated by Mrs. Geo. L. Gotschall and Mrs. R. T. Hawkins.

For Aldermen: Harry Brown, nominated by A. E. Abousaify and George Long.

Geo. L. Gotschall, nominated by L. G. Kelley and J. P. Ellis.

Arthur Rippon, nominated by A. H. Parker and C. F. Dickinson.

R. E. Schmitz, nominated by O. H. Ronnle and R. J. White.

James Scott, nominated by B. M. Parker and C. D. Emman.

For Public School Trustees: D. MacEACHERN, nominated by W. F. H. Montgomery and R. J. Whyte.

Ell Moore, nominated by R. W. Manley and A. A. Ellis.

W. Oswald, nominated by Mrs. Kate Blackwell and Geo. H. H. H.

There will be no election for the trustees of Sacred Heart, Separate School Board, as P. E. Greiner and James Calne were elected by acclamation to fill the two vacancies.

PIONEER CITIZEN IS BEING HEARTILY CONGRATULATED

Wetaskiwin has always been fortunate in the splendid type of residents from its inception, and among these, the pioneer citizen, Axel Karlsson, who on Thursday last, was the guest of numerous relatives and friends who assembled to do him honor on the occasion of his 74th birthday. The family name, de Rosenroth, is one which can be traced as far back as the 12th century, and is liberally scattered throughout the pages of the history of Switzerland, many members through the centuries, years acquiring fame and distinction as leaders in military, judicial, political and administrative capacities.

Mr. Rosenroth emigrated to Canada at an early age, locating in the west in the year 1895, engaging almost immediately in the business of ranching on an extensive scale, although his early training was along professional lines as a civil engineer and land surveyor. It was only to be expected that a man endowed by nature with the foresight, vigor and resourcefulness such as Mr. Rosenroth possessed and having the advantage of advanced education, should take an influential and prominent part in public affairs. In 1896, he was appointed a Justice of the Peace, the following year a Notary Public, and on October 28th, 1898, elected by acclamation to the Legislative Assembly of the North West Territories, and in 1902, re-elected also by acclamation to that same body. By his wise counsel and unflinching energy, he became favorably impressed on the public mind, so that he was chosen a member of the first Legislature of Alberta in the year 1905.

Mr. Rosenroth was instrumental in securing the City Charter for Wetaskiwin, and the location of that magnificent edifice, the Court House, the first built in the Province following autonomy.

A cultured gentleman, a linguist and scholar of no mean ability, with a wonderful understanding of international problems, Mr. Rosenroth has led a colorful life, and it is both pleasurable and instructive to engage in conversation with him at all times. Still actively engaged in business, and in robust health, he may be seen walking daily on Wetaskiwin streets with a brisk step and erect carriage that many a younger man envies. May he long be spared to his relatives and friends.

Owing to the heavy Christmas advertising and local news, the serial story has been crowded out this week.

Canada won 68 out of 72 prizes offered for hard, red spring wheat, at the Chicago International exhibition.

Town Topics

Curt Smith is in Calgary this week on business.

Mrs. Barnhill left a few days ago for Trust N.S., where she will visit relatives and friends.

The friends of Harry Smith are pleased to see him around again after his operation for appendicitis.

Mr. and Mrs. Cecil Richards and baby left last week for Victoria, where they will spend the winter.

William Shawlow returned home last week, after spending several months with his grandfather at Montclair, Alta.

Dr. W. E. Jansen has leased accommodation in the Bank of Montreal block and will open a dental office in a few days.

The regular meeting of the W. M. S. will be held at the home of Mrs. T. B. Stevenson on Tuesday, December 15th, at 8 p.m.

A hockey game will be played here on Thursday evening of this week, with Ponoka as visitors. The L.O.L. are sponsoring the game.

The Norwegian Lutheran Ladies' Aid will meet at the home of H. H. Ronnle on Friday, December 11th, at 2:30 p.m. All members are requested to attend.

Be sure and mark your ballot on Monday next for one Mayor, three Aldermen, and two public school trustees. If you do not vote for these, Aldermen and two trustees the ballot will be spoiled.

Attention is directed to the Seed Fair under the auspices of the Board of Trade, to be held on Saturday of next week, December 19th, in the U. F. A. block. It is expected the competition will be keen and that a good quality of grain will be on exhibit.

The Worthy Master and Worthy Patron of Victory Chapter, O.E.S., entertained the members of the Chapter at a bridge party in the A. F. & A. M. banquet rooms on Friday evening last. The prize-winners were Mrs. V. C. French, Mrs. F. Turner, G. L. Gotschall and G. E. Wiseman.

Axel Karlsson of Falun, winner of the Edmonton Bulletin Thanksgiving Day road race, and who also won prizes for distance events at Banff and Calgary, has threatened B. W. Bellamy, filed his entry to compete on Christmas Day in the Calgary Herald six mile modified marathon, the distance classic of Western Canada.

The Nanpanton Supply Company of Wetaskiwin, proprietors of the new Ying Yang hair restorer and denture druff eradicator, has been successful in placing a stock of their product with the Edmonton Barber Supply Co. and with Clayton Ltd. for distribution. These firms have been satisfied that Ying Yang is a most valuable contribution to the field of toilet preparations and barber supplies.

The annual meeting of the ratepayers of the City of Wetaskiwin will be held in the lounge room of the Driard Hotel (not in the Council Chamber as formerly announced) on Thursday evening of this week at 8 o'clock. The reports of the city officials for the past year will be given and candidates for office at the forthcoming election will be given an opportunity to address the meeting.

At the annual meeting of the Amateur Athletic Union of Canada held last week in Winnipeg, B. W. Bellamy of this city, was re-elected a member of the national executive. During the convention he served on five different committees, as well as representing Alberta in the formation of a Western Canada Amateur Baseball Association and the Western Canada Amateur Softball Association.

The Wetaskiwin Business Girls' Club held a most enjoyable meeting Thursday evening last in the Driard Hotel club room. Mrs. Burkholder explained the aims of the Welfare League. The girls voted to aid in this work. Following this Rev. P. C. Wade gave a most entertaining as well as instructive talk upon the "Economic Problems of Today," and mentioned some of the ideas incorporated in the Soviet "Five Year Plan." Mrs. A. Johnson gave two most delightful solos "Your Song from Paradise" and "Danny Boy," which were well received. The meeting was followed by lunch served by the hostesses Miss M. Henderson, Miss M. Johnson and Miss J. Barker.

Hospital Agreement was Discussed by Council

A meeting of the City Council was held on Tuesday evening, all members being present with the exception of Mayor Howatt, Deputy Mayor Scott presiding.

H. C. Berger applied for a permit to erect a small metal clad gasoline cleaning shed at the rear of his place of business.

An agreement was also made with Mr. Berger to pay \$6 business tax for the months of November and December.

The appeal of Mr. Thiel for work or relief was referred to the Committee.

Chief Smart of Calgary, and the La France Company of Vancouver, wrote re supplying Wetaskiwin with hand pump extinguishers at \$18.00 each. Letter was referred to Fire Committee.

A permit was granted to the Wetaskiwin Dairy Pool Limited to erect a creamery building on Lansdowne Street, near the hospital, subject to the approval of the Town Planning Commission.

The matter of collecting truck and other licenses in the city was considered, and the solicitor was given instructions to prosecute where necessary to make collection.

City Solicitor Russell gave information about deporting a man and family, and the Immigration Department will be requested to investigate this case.

J. S. Orr wrote accepting the position on the Town Planning Appeal.

D. E. MacDonald, superintendent of Public Buildings, wrote advising Council that the Government will leave one cell in the Fire Hall on

payment of \$50. This was accepted. Godfrey Baker, secretary of the Municipal District of Montgomery, interviewed Council in the matter of the proposed hospital agreement. This agreement was read and considered clause by clause, and the solicitor was instructed to re-draft the agreement, embodying the suggested alterations.

Solicitor Russell advised Council that the transaction respecting the purchase of scavenger grounds from John Isley is now in order, and the Council authorized the payment of \$375 for same.

Accounts to the amount of \$681.96 were passed for payment.

The offer of C. McLeod to buy sleighs from the city for \$20 was accepted.

A letter was received from R. M. Angus, Police Magistrate, remitting the amount of fines due the city to date.

The police report of Chief McIlhargy for November was read and filed.

The agreement appointing C. McLeod caretaker of nuisance ground at \$10 per month was passed.

It was thought that the Council Chamber would not accommodate the crowd at the annual meeting, as an election is to be held, and the city clerk was instructed to reserve the lounge room of the Driard Hotel for this meeting.

The Council voted the balance of the grant, namely, \$175, for this year, to the Wetaskiwin Library.

By-law No. 715, respecting the sale of property to Mrs. B. Ness, for \$600 was read three times and finally passed.

Civic Candidates Endorsed at a Meeting of Citizens

At a largely attended meeting of ratepayers held in the City Hall, the following were endorsed: For Mayor J. W. Somers, druggist; for Aldermen, Jas. Scott and Harry Brown; for School Trustees, Duncan MacEACHERN and Eli Moore.

It was felt by the ratepayers present at the meeting that men fully experienced in business as well as civic affairs should be induced to stand for office. They were pleased indeed, when Mr. Somers decided to accept the nomination for Mayor. Previous to coming to Wetaskiwin he served for a number of years on the Todfield Council as Alderman, but since coming here he has steadfastly refused public office, feeling that he owed all his time to his business. The city will be assured of good solid administration with Mr. Somers at the helm.

It was felt that with the experience Mr. Brown and Mr. Scott had on the aldermanic board, and the time and

excellent service they have given the ratepayers, that they should be endorsed for re-election to the Council. A third alderman has to be elected, but it was felt that the two old members of the Council were the only ones that should be endorsed.

Mr. Eli Moore, one of the retiring school trustees, and Mr. Duncan MacEACHERN, a former member of the board, were endorsed for the school board vacancies. Both these men have had years of experience on the school board, and have at all times given their best. They are fully acquainted with all school questions, and are probably more capable than any other two men in the city when it comes to matters pertaining to school affairs.

It is highly important in these trying times that men of wide business experience be chosen to represent us in the administration of city affairs. Do your duty, get out and vote for these men. They will merit your support.

ner. The League wish to thank Miss Bnals for the splendid assistance she gave in the Lucas School District to make possible the attendance of the children at the Audien Theatre, and also to Messrs. Zielke and C. Lucas for bringing the children.

WETASKIWIN GIRL IS PRIZE WINNER

Taking first place in a close contest for honors in the Edmonton Journal's Word Game, for the week ending November 28, Elmer Flinch, a Wetaskiwin high school student, won the prize in the students' section of the competition. The prize was won by a fair margin over competitors from schools in many towns and villages scattered over central and northern Alberta as well as students from most of the schools in Edmonton. —Journal.

DESPITE THE DEPRESSION

I AM STILL VERY RICH

We have passed through a panic,
suffered from a crash on the stock
market and are now more than
half way through the depression,
and I am still rich!

It may be true that I have much
less to live on than I had a year
ago, but it is certainly true that
I have just as much as ever to
live for. The real value of life
are unshaken and solid.

The stock crash cost us much
that we never had—paper profits
that never got nearer our pockets
than the financial pages of the
daily papers. The market failed,
but nothing else did. Prices went
down, but not one acre lost its
fertility, and all the electrons, pro-
tons and other waves went on
working in their accustomed ways.

When the depression came, I was
compelled to take an invoice, and
soon discovered that I was still rich.
All my capacity for the enjoyment of
life was intact.

My two-hundred thousand dollar
eyes are just as good as they ever
were. Every landscape and sunset
is mine if I want it. Twenty-
thousand-dollar scenes and views
are added to my collection almost
every week. A hundred-thousand
dollar sense of hearing is still un-
impaired and by it I become an
heir to a world of beauty and in-
spiration.

Then, there's my million-dollar
stomach and a half-million dollar
appetite. No doctor has sentenced
me to spinach—for the rest of my
life. Better to have plain food and
an appetite than to sit down to a
banquet with an appetite. No man
can be rich who is compelled to take
orders daily from his stomach.

The depression has not lowered
the value of a single friendship.
Neighbors still greet us in the
same old cordial way, business as-
sociates believe in us, and our sons
hold us in high respect. The wife's
welcome at the close of the day
has not depreciated in the least
and our daughters continue to "av-
ish" their affection upon us with
the same old extravagance.

My faith in the goodness of the
universe is unimpaired. By that
faith, I am emboldened as I face
defeat and despair. The prayers
my mother taught me and the faith
in God instilled in me by a devout
father, remain as priceless as ever.

No nation becomes great by be-
coming rich. Neither does a man
find enduring satisfaction in life
by owning something—only by be-
coming something. The most degra-
ding poverty is that which results
from killing the spirit that the body
may be served.

This depression has cost us some
of the things we created, but it has
robbed us of none of our power to
create. We may have lost some
beautiful things, but we have lost no
love of the beautiful.

It is a challenge, a catastrophe.
A generation that has con-
quered the air and has sent giant
planes circling the globe, which has
plunged the depths and disported the
oceans' floor, which has climbed
above the clouds and lived in the
stratosphere, is now faced with the
challenge to rise above mere things
and seek an emancipation of the
spirit man.

The last six months have been for
many men a thrilling spiritual ad-
venture through which they have dis-
covered their real worth. Bereft of di-
vidends and profits, they are discover-
ing the sustaining powers of a strong
religious faith, the abiding values of
courage, heroism, honor, charity and
trustworthiness.

A financial crisis can wipe out
profits and bring business to a
standstill, but character is beyond
reach. It can rob us of all we
have, but it cannot affect what we
are.

The investments we made in an-bitious youth, hospitals, crippled
children's camps, colleges and ser-
vice institutions go on paying di-
vidends. The deepest satisfactions of
life—those which come from shar-
ing and serving—remain secure.

I am still rich because I am in-
dependently rich—none of my
wealth depends upon business con-
ditions or market reports.—Ex.

UNREST AS AFTERMATH

OF FINANCIAL CRASH

It would be difficult to exaggerate
the "unfortunate" effect throughout
all Canada of such financial ex-
posures as the mining brokerage scandal,
the breakdown of unwieldy merg-
er promotions (of which Canada Power
and Paper was the most glaring
example) and the revelations of po-
litically-minded management of the
Beauharnois development. There has
been more discussion of the political
significance but in these respects
there is grave import to what the
public register as a widespread break-
down of reason and justice in finance.

The investor or ex-investor who is
now in an unhappy position through-
out of his job as well, finds, for the
first time, that he has moments
when he almost sympathizes with
socialism. Improperly in high finan-
cial places weakens public confi-
dence in our social and economic sys-
tem. That such confidence will be
restored is beyond doubt; but it
should never have had to undergo
such a period of stress due to causes
within the system itself.

It is not enough to say that all of
the financial crimes that have come
to light were an unescapable feature
of a period of foolish inflation which
had its basic causes in the greed
and poor judgment of practically
every one in the country. Nearly
every one did blindly join in the
riot of dollars and mass emotion
played its part. But mass emotion
responds to leadership, and financial
leadership in most of the Wall
Streets of the world set no shining
example between 1925 and 1929.

Canada cannot escape the conse-
quences by saying that "everybody
was wrong and the mistakes of the
"big fellows" were only more dan-
gerous because they were on a larger
scale. The big fellows were the ones
who should have given sufficient
leadership to keep the mad specula-
tive scramble in check.

Investors as a class, who have lost
millions of dollars entrusted by them
to the care of financial operators
in whom they once placed reliance,
will probably be slow to recover
complete confidence. This may be
a good thing; investors should learn
not to trust blindly to the advice or
opinions of others.

It would be well if Canada never
again "forgot" a boom like the last
one, for it has been clearly demon-
strated that when promotions, fin-
ancing, refinancing, and stock mar-
ket operations are too simple a
highway to easy money, that clear-
headed, courageous conservatism is
impossible to stem the tide that
carries ahead with it, for a while at
least, the honest and the unscrup-
ulous, the careful and the reckless,
the trusting and the trusted, all to
be dashed together upon the rock
of final reckoning.—Toronto Financial Post.

LESS BUSINESS FAILURES

IN CANADA LAST QUARTER

Business failures in Canada for the
third quarter of 1931, as reported by
R. G. Dun & Co., numbered 514 with
liabilities of \$8,954,877, against 592
during the same period of last year
involving \$13,113,027 of indebtedness.

The decrease both in number and
amount was very largely in the Pro-
vince of Quebec. There was an in-
crease in Ontario and in a number
of the other Provinces. Two-thirds of
all the failures occurring in Canada
were reported in the two Provinces
of Ontario and Quebec and most of
Montreal, which are located in these
two Provinces.

Besides the Province of Quebec
there was a reduction in the number
of business defaults in the third
quarter of this year in British Colum-
bia and in Saskatchewan. Manitoba
shows some increase this year; also,
Alberta, New Brunswick and Nova
Scotia. At practically all of these
Provinces excepting Ontario, Nova
Scotia and Newfoundland, the liabil-
ities were less in the third quarter of
this year than they were at that time
in 1930.

PROVINCES MUST APPROVE

UNEMPLOYMENT RELIEF

Acting Prime Minister Sir George
Perley has announced that applica-
tions from municipalities or corpora-
tions direct to the Dominion govern-
ment for unemployment relief can-
not be considered. "I would like to
emphasize," the acting Prime Min-
ister stated, "the fact that any
representations or requests under
the Unemployment Relief Act from
municipalities or corporations must
go first to the provincial authorities
for their consideration, and, if they
approve, then such representations
are sent on to Ottawa."

Consideration of the Department of
Labor, which is charged with the
duty of administering the Unem-
ployment Relief Act. Nothing can
be gained by visits to Ottawa in con-
nection with the requirements of
municipalities, or corporations under
this act and, as those who come are
put to considerable expense and loss
of time, I would state, in as broad a
way as possible, that the Dominion
Government deals with all these
questions only through the govern-
ment of the province in which the
municipality or corporation is sit-
uated."

ADVERTISING THE

KEY TO PROSPERITY

There is no substitute for advertis-
ing; this fact has been proven beyond
any shadow of doubt.

Reducing prices on goods, behind
the shop windows which look out on
the street, without telling the great
buying public, through the only pro-
ven medium, the press, and expecting
response, is a washout.

To pull Canada out of the so-called
depression, manufacturers, whole-
salers, and retailers, will have to
adopt a courageous, enterprising, op-
timistic outlook.

Those with quality goods to sell,
will find a ready market if they will
show a courageous front and adver-
tise consistently and heavily in the
newspapers. In good times and bad,
the newspapers have shown them-
selves to be the greatest pulling
power.

Now is the time to push branded
commodities, because the public be-
lieves in Canada, its manufacturers,
and industries.

We have only to look over the fig-
ures which show progress, or the
reverse, to see the power of adver-
tising. Without exception, those or-
ganizations which have increased ad-
vertising appropriations are out on
top, in sales and profit.

Sir Louis Barron, chairman of
Caracas Ltd., world renowned tobacco
manufacturer, in a recent interview
stated that so firmly did he and his
associates believe in the press as a
pulling power in difficult times that
they have decided to inaugurate a
large new advertising campaign.

Several large local advertisers in-
terviewed by The Times testify to a
large increase in sales over 1929, and
point to newspaper advertising, back-
ed up by reputable merchandise as
the sole reason.

MUNICIPALITY HELD LIABLE

FOR DEBTS, INDIGENT PATIENTS

Whether or not municipalities are
liable for costs of treating indigents
in cases of sudden and urgent
necessity, where written orders have
not been issued by the munici-
pality, was argued in district
court Friday.

His Honor Judge Crawford re-
served judgment in the case of the
Edmonton Hospital Board vs. Mun-
icipal District of Liberty, No. 489, in
which plaintiffs are seeking to re-
cover \$386 under provisions of the
Alberta Hospitals act.

The case is one in which August
of Liberty district, northwest of
Leduc, were taken to an Edmonton
hospital for treatment.

Expert medical testimony was
submitted by plaintiffs to show that
the cases were in the category of
sudden and urgent necessity, while
defendants sought to prove that
both cases could have been treated
in their own district.

The defendants further contended
that inasmuch as no written order
had been applied for by the Ed-
monton Hospital Board there could
be no liability on the part of the
municipality.—Journal.

TO THE ELECTORS OF THE CITY OF WETASKIWIN

Ladies and Gentlemen:

Yielding to the urgent request of many of my supporters, I have consented to become a candidate for the office of Mayor for 1932. My service as Alderman for some ten years has given me an insight into Municipal affairs in Wetaskiwin, and I am entrusted to occupy the highest office in this City. I will, in the past, carry out the duties of the office to the best of my ability. I therefore ask for your votes at the polls on Monday next.

Yours respectfully,
GEO. L. GOTHARD.

WHO'S WHO AND WHY

J. W. Somers is a candidate this year for the position of Mayor of our city. Although Mr. Somers is well known as one of our respected business men, he is perhaps better known for his interest in athletics, and the active part he has taken in community work, but little is known of him in respect to his interest and experience in municipal affairs. We find that he has had a real schooling in municipal affairs previous to coming to Wetaskiwin. He served for several years on the Telford Council and was a greater portion of that time chairman of the finance committee. Anyone knowing the trying times through which that town passed, after the gas boom, can fully realize the amount of work and responsibility attached to the position that Mr. Somers held. He informs us that knowing the amount of time that had to be given to successfully fill any municipal office, he would not consent to accept any nomination for municipal office, until such time as he felt he

RELATIONSHIPS OF TURKEY TO ALBERTA

Within recent years, it is apparent from the records of Geo. Jormie, Provincial Poultry Commissioner, which reveal not only that the turkey industry in the province has now an annual value of nearly \$1,200,000, but also that there is a very large export trade, and that the province this year was able to capture for the first time a Canadian championship in turkey breeding.

This very satisfactory condition of affairs, which has added a remunerative branch to the province's general agricultural production program, has been brought about largely through the efforts of the poultry ranch and of the Alberta Bronze Turkey Breeders' Association, now a large and thriving organization.

Fourteen years ago Alberta's turkey population was something like 30,000 head, valued at \$350,000. Now is estimated at 614,000 head, valued at \$1,135,000. Every year between 60 and 70 carloads of turkeys go out of the province to enrich the festive parade of many centres in Eastern Canada and the United States. This year one commission agent in the United States has intimated that he may want 25 or 30 or possibly 50 carloads of turkeys for his own clients at the markets in New York and her large American clients.

So much for the ordinary commercial end of the turkey business. But is in breeding stock that Alberta is made real advancement due to a turkey improvement (Record of merit) in which Alberta was first the field among the provinces. This work was started in 1927, when 1,100 birds were entered under the name

Relieve
that pain
safely

You can always relieve that ache or pain harmlessly with Aspirin. Even those deep-seated pains that make a man's very bones ache. Even the systemic pains so many women suffer. They will yield to these tablets! Genuine Aspirin has many important uses. Read the proven directions in every package of genuine Aspirin, and don't endure any needless pains from neuralgia, neuritis, rheumatism.

Keep a bottle of these tablets in the house; carry the pocket tin if subject to unexpected headaches, sudden colds. Quick relief without any harmful effects! Aspirin does not depress the heart. Just look each time for the name Aspirin—and the word genuine printed in red on every box.

Every drugist has genuine Aspirin, and if you get the genuine tablets you are sure to get relief.

IS THIS WHY SOME OF

US ARE NOT IN JAIL
Perhaps you would laugh at the idea that owning a dog or cat or a canary might keep you from going to jail. It does seem rather far fetched, doesn't it?

Yet there are close to 10,000,000 dogs in the United States, besides great numbers of cats and birds and other pets—enough so that every boy and girl can have at least one. But of the men who today are serving sentences in prison, less than one in every hundred had a pet when he was a boy.

Can it be possible that owning a pet does something to a boy or girl so that he or she is less likely to be a lawbreaker? It is quite possible. Having a pet teaches you kindness. A dog can give you as good lessons in loyalty, courage and cheerfulness as the best teacher in the world. And these are the qualities that make good citizens.

Maybe that old dog of yours, whom you prize so much as a playmate is more valuable than you dreamed. Perhaps he is an important character. At any rate, he is worth the best treatment that you can give him.

ed by the Saskatchewan producers, he said. Manitoba producers were to meet today and those of Quebec within a week to consider it. If Ontario's co-operative joined the movement, he said, control of the domestic price and the exportable surplus of hogs would be held by the Dominion co-operative.

In explanation of the plan dealing with hog production and prices, which he had suggested before the roundtable conference of the Canadian Chamber of Commerce a week ago, Mr. Arkell said Canada slaughtered 60,000 hogs a week, of which only 3,000 were for export. Yet, because of this export market offering a sale for hogs, it controlled Canadian domestic prices; in other words, he said, buyers controlled prices by taking advantage of the world price.

A city lady visited one of our country homes the other day. Looking over the stock she said: "Hain't that cow got a lovely coat?" "Yes," was the reply, "it's a Jersey." "Is it really," she exclaimed, "Why I thought it was it's skin."

Up at the Club the other day two old timers sat over a game of cards. "Was that card I dealt you, a spade?" asked one. "It was, but what made you think so?" asked the other. "I knew it was a spade, because you looked at it, then spit on your hands before you picked it up."

DESPITE THE DEPRESSION

I AM STILL VERY RICH

We have passed through a panic,
suffered from a crash on the stock
market and are now more than
half way through the depression,
and I am still rich!

It may be true that I have much
less to live on than I had a year
ago, but it is certainly true that
I have just as much as ever to
live for. The real value of life
are unshaken and solid.

The stock crash cost us much
that we never had—paper profits
that never got nearer our pockets
than the financial pages of the
daily papers. The market failed,
but nothing else did. Prices went
down, but not one acre lost its
fertility, and all the electrons, pro-
tons and other waves went on
working in their accustomed ways.

When the depression came, I was
compelled to take an invoice, and
soon discovered that I was still rich.
All my capacity for the enjoyment of
life was intact.

My two-hundred thousand dollar
eyes are just as good as they ever
were. Every landscape and sunset
is mine if I want it. Twenty-
thousand-dollar scenes and views
are added to my collection almost
every week. A hundred-thousand
dollar sense of hearing is still un-
impaired and by it I become an
heir to a world of beauty and in-
spiration.

Then, there's my million-dollar
stomach and a half-million dollar
appetite. No doctor has sentenced
me to spinach—for the rest of my
life. Better to have plain food and
a banquet with no appetite. No man
can be rich who is compelled to take
orders daily from his stomach.

The depression has not lowered
the value of a single friendship.
Neighbors still greet us in the
same old cordial way, business as-
sociates believe in us, and our sons
hold us in high respect. The wife's
welcome at the close of the day
has not depreciated in the least
and our daughters continue to "lav-
ish their affection upon us with
the same old extravagance.

My faith in the goodness of the
universe is unimpaired. By that
faith, I am emboldened as I face
defeat and despair. The prayers
my mother taught me and the faith
in God instilled in me by a devout
father, remain as priceless as ever.

No nation becomes great by be-
coming rich. Neither does a man
find enduring satisfaction in life
by owning something—only by be-
coming something. The most degra-
ding poverty is that which results
from killing the spirit that the body
may be served.

This depression has cost us some
of the things we created, but it has
robbed us of none of our power to
create. We may have lost some
beautiful things, but we have lost no
love of the beautiful.

It is a challenge, not a disas-
trophe. A generation that has con-
quered the air and has sent giant
planes circling the globe, which has
plunged the depths and disported the
oceans' floor, which has climbed
above the clouds and lived in the
stratosphere, is now faced with the
challenge to rise above mere things
and seek an emancipation of the
spirit of man.

The last six months have been for
many men a thrilling spiritual ad-
venture through which they have dis-
covered their real worth. Bereft of di-
vends and profits, they are discover-
ing the sustaining powers of a strong
religious faith, the abiding values of
courage, heroism, honor, charity and
trustworthiness.

A financial crisis can wipe out
profits and bring business to a
standstill, but character is beyond its
reach. It can rob us of all we
have, but it cannot affect what we
are.

The investments we made in an-

bitious youth, hospitals, crippled
children's camps, colleges and ser-
vice institutions go on paying div-
idends. The deepest satisfactions of
life—those which cannot be shared
and secured—remain secure.
I am still rich because I am in-
dependently rich—none of my
wealth depends upon business con-
ditions or market reports—Ex.

UNREST AS AFTERMATH
OF FINANCIAL SCANDAL

It would be difficult to exaggerate
the "aftermath" effect throughout
all Canada of such financial ex-
posures as the mining brokerage scen-
dals, the breakdown of unwieldy merg-
er promotions (of which Canada Pow-
er and Paper was the most glaring
example) and the revelations of po-
litically-minded management of the
Beauharnois development. There has
been more discussion of the political
significance but in these respects
there is grave import to what the
public regards as a widespread break-
down of reason and justice in finance.

The investor or ex-investor who is
now in an unhappy position through-
out loss of his job as well, finds, for
the first time, that he has moments
when he almost sympathizes with
socialism. Improperly in high finan-
cial places weakens public confi-
dence in our social and economic sys-
tem. That such confidence will be
restored is beyond doubt; but it
should never have had to undergo
such a period of stress due to causes
within the system itself.

It is not enough to say that all of
the financial crimes that have come
to light were an unescapable feature
of a period of foolish inflation which
had its basic causes in the greed
and poor judgment of practically
every one in the country. Nearly
every one did blindly join in the
riot of dollars and miss emotion
played its part. But mass emotion
responds to leadership, and financial
leadership in most of the Wall
Streets of the world set no shining
example between 1925 and 1929.
Canada cannot escape the conse-
quences by saying that "everybody
was wrong and the mistakes of the
"big fellows" were only more dan-
gerous because they were on a larger
scale. The big fellows were the ones
who should have been given sufficient
leadership to keep the mad specu-
lative scramble in check.

Investors as a class, who have lost
millions of dollars entrusted by them
to the care of financial operators
in whom they once placed reliance,
will probably be slow to recover
complete confidence. This may be
a good thing; investors should learn
not to trust blindly to the advice or
opinions of others.

It would be well if Canada never
again "enjoyed" a boom like the last
one, for it has been clearly demon-
strated that when promotions, fin-
ancing, refinancing, and stock mar-
ket operations are too simple a
highway to easy money, that clear-
headed, courageous conservatism is
impotent to stem the tide that car-
ries ahead with it, for a while at
least, the honest and the unscrup-
ulous, the careful and the reckless,
the trusting and the trusted, all to
be dashed together upon the rock
of final reckoning.—Toronto Financial Post.

LESS BUSINESS FAILURES
IN CANADA LAST QUARTER

Business failures in Canada for the
third quarter of 1931, as reported by
R. G. Dan & Co., numbered 514 with
liabilities of \$3,854,877, against 592
during the same period of last year
involving \$13,113,027 of indebtedness.
The decrease both in number and
amount was very largely in the Pro-
vince of Quebec. There was an in-
crease in Ontario and in a number
of the other Provinces. Two-thirds of
all the failures occurring in Canada
were reported in the two Provinces
of Ontario and Quebec and most of
those in the cities of Toronto and
Montreal, which are located in these
two Provinces.

Besides the Province of Quebec
there was a reduction in the number
of business defaults in the third
quarter of this year in British Colum-
bia and in Saskatchewan. Manitoba
shows some increase this year; also,
Alberta, New Brunswick and Nova
Scotia. At practically all of these
Provinces excepting Ontario, Nova
Scotia and Newfoundland, the liabil-
ities were less in the third quarter of
this year than they were at that time
in 1930.

PROVINCES MUST APPROVE
UNEMPLOYMENT RELIEF

Acting Prime Minister Sir George
Perley has announced that applica-
tions from municipalities or corpo-
rations direct to the Dominion govern-
ment for unemployment relief can-
not be considered. "I would like to
emphasize," the acting Prime Min-
ister stated, "the fact that any
representations or requests under
the Unemployment Relief Act from
municipalities or corporations must
go first to the provincial authorities
for their consideration, and, if they
approve, then such representations
are sent on to Ottawa. For the con-
sideration of the Department of
Labor, which is charged with the
duty of administering the Unem-
ployment Relief Act. Nothing can
be gained by visits to Ottawa in con-
nection with the requirements of
municipalities, or corporations under
this act and, as those who come are
put to considerable expense and loss
of time, I would state, in as broad a
way as possible, that the Dominion
Government deals with all these
questions only through the govern-
ment of the province in which the
municipality or corporation is situ-
ated."

ADVERTISING THE
KEY TO PROSPERITY

There is no substitute for advertis-
ing; this fact has been proven beyond
any shadow of doubt.

Reducing prices on goods, behind
the shop windows which look out on
the street, without telling the great
buying public, through the only pro-
ven medium, the press, and expecting
response, is a washout.

To pull Canada out of the so-called
depression, manufacturers, whole-
salers, and retailers, will have to
adopt a courageous, enterprising, op-
timistic outlook.

Those with quality goods to sell,
will find a ready market if they will
show a courageous front and adver-
tise consistently and heavily in the
newspapers. In good times and bad,
the newspapers have shown them-
selves to be the greatest pulling
power.

Now is the time to push branded
commodities, because the public be-
lieve in Canada, its manufacturers,
and industries.

We have only to look over the fig-
ures which show progress, or the
reverse, to see the power of adver-
tising. Without exception, those or-
ganizations which have increased ad-
vertising appropriations are out on
top, in sales, and profit.

Sir Louis Barron, chairman of
Caracas Ltd., now renowned tobacco
manufacturer, in a recent interview
stated that so firmly did he and his
associates believe in the press as a
pulling power in difficult times that
they have decided to inaugurate a
large new advertising campaign.

Several large local advertisers in-
terviewed by The Times testify to a
large increase in sales over 1929, and
point to newspaper advertising, back-
ed up by reputable merchandise as
the sole reason.

MUNICIPALITY HELD LIABLE
FOR DEBTS INDIGENT PATIENTS

Whether or not municipalities are
liable for costs of treating indigents
in cases of sudden and urgent
necessity, where written orders have
not been issued by the munici-
pality, was argued in district
court Friday.

His Honor Judge Crawford re-
served judgment in the case of the
Edmonton Hospital Board vs. Munici-
pal District of Liberty No. 488, in
which plaintiffs are seeking to re-
cover \$888 under provisions of the
Alberta Hospitals act.

The case is one in which August
Rinas and Miss O. Nyby, residents
of Liberty district, southwest of
Leduc, were taken to an Edmonton
hospital for treatment.

Expert medical testimony was
submitted by plaintiffs to show that
the cases were in the category of
sudden and urgent necessity, while
defendants sought to prove that
both cases could have been treated
in their own district.

The defendants further contended
that inasmuch as no written order
had been applied for by the Ed-
monton Hospital Board there could
be no liability on the part of the
municipality.—Journal.

EMPLOYMENT IN THE U.S.

President Green of the American
Federation of Labor states that
while unemployment is not increas-
ing at an abnormal rate at this
season, and that the November in-
crease was 200,000 less than ex-
pected because of farm layoffs hav-
ing been light, he estimates present in-
dustrial unemployment at 6,000,000,
or 20 per cent of normal employ-
ment. He predicts that the figure
will grow to 7,500,000 by January
unless increased efforts are made
to keep men at work.

"I contracted a bad cold that left me with an awful
cough.
For nights I never put my head on a pillow, and was
often afraid I would choke to death.
I had tried all sorts of medicine and was in despair
until a friend advised me to get Dr. Wood's Norway Pine
Syrup, which I did, and I had only taken a few doses
when I got some relief, and after taking three bottles
my cough had entirely disappeared."

TO THE ELECTORS OF THE CITY OF WETASKIWIN

Ladies and Gentlemen:

Yielding to the urgent request of many of my supporters, I have consented to become a candidate for the office of Mayor for 1932. My service as Alderman for some ten years has given me an insight into Municipal affairs in Wetaskiwin, and I trust to occupy the highest office in this City, I will as in the past, carry out the duties of the office to the best of my ability. I therefore ask for your votes at the polls on Monday next.

Yours respectfully,
GEO. L. GOTHARD.

WHO'S WHO AND WHY

I. W. Somers is a candidate this year for the position of Mayor of our city. Although Mr. Somers is well known as one of our respected business men, he is perhaps better known for his interest in athletics, and the active part he has taken in community work, but little is known of him in respect to his interest and experience in municipal affairs. We find that he has had a real schooling in municipal affairs previous to coming to Wetaskiwin. He served for several years on the Town Council and was a greater portion of that time chairman of the finance committee. Anyone knowing the trying times through which that town passed, after the gas boom, can fully realize the amount of work and responsibility attached to the position that Mr. Somers held. He informs us that knowing the amount of time that had to be given to successfully fill any municipal office, he would not consent to accept any nomination for municipal office until such time as he felt he was established in his new home long enough that he could afford to take the time away from his business. He has lived now in Wetaskiwin about 10 years, and is to be commended for offering his services to the city, when without doubt, a great deal of time will have to be given to civic affairs. We know that the position of Mayor requires a lot of work and considerable tact and ability to successfully satisfy everyone. We feel sure that Mr. Somers will meet all these requirements in a very satisfactory way. See that he is put there by giving him your vote on Monday.

TO THE RATEPAYERS OF THE WETASKIWIN SCHOOL DIST.

Ladies and Gentlemen:

As I am a candidate for the office of Public School trustee, I cordially solicit your support on Monday evening, Dec. 13th, at 8 o'clock, in the hall of the Alberta, and if elected, I will endeavor to keep the Wetaskiwin schools in the front as educational centres. I will also advocate fair treatment for teacher pupil and parent alike.

Such has been doing better work and the lying practically ceased. In general it will be found that much better results can be obtained by treating lying as a symptom rather than as a disorder in itself.

PORT CHURCHILL SOON PREPARED FOR LARGE VOLUME OF BUSINESS

Churchill, Man., Dec. 4.—New impetus to progress in development of harbor facilities at the government owned port of Churchill, in northern Manitoba, has been provided by the successful clearing of two grain boats this fall. By the time shipping is in full swing next summer, the port will be in a position to handle business not limited to western grain.

With the spring of 1932, workers of Canada's Department of railways and canals will be busy tasks calculated to widen the usefulness of the prairies' new outlet to the sea. While some work may be held back until foundations already laid have settled sufficiently, Hon. J. R. Manion, minister of railways and canals, makes clear that all possible progress will be achieved next season and that the harbor will be completed in every way by 1933.

IS THIS WHY SOME OF US ARE NOT IN JAIL

Perhaps you would laugh at the idea that owning a dog or cat or a canary might keep you from going to jail. It does seem rather far fetched, doesn't it? Yet there are close to 10,000,000 dogs in the United States, besides great numbers of cats and birds and other pets—enough so that every boy and girl can have at least one. But of the men who today are serving sentences in prison, less than one in every hundred had a pet when he was a boy.

Can it be possible that owning a pet does something to a boy or girl so that he or she is less likely to become a lawbreaker? It is quite possible. Having a pet teaches you kindness. A dog can give you as good lessons in loyalty, courage and cheerfulness as the best teacher in the world. And there are the qualities that make good citizens.

Maybe that old dog of yours, whom you prize so much as a playmate is more valuable than you dreamed. Perhaps he is an important character. At any rate, he is worth the best treatment that you can give him.

RELATIONSHIPS OF TURKEY TO ALBERTA

Dec. 1.—Alberta's turkey industry is growing within recent years, it is apparent from the records of George Cormie, Provincial Poultry Commissioner, which reveal not only that the turkey industry in the province has now an annual value of nearly \$1,200,000, but also that there is a very large export trade, and that the province this year was able to capture for the first time a Canadian championship in turkey breeding. This very satisfactory condition of affairs, which has added a remunerative branch to the province's general agricultural production program, has been brought about largely through the efforts of the poultry ranch and of the Alberta Bronze Turkey Breeders' Association, now a large and thriving organization. Fourteen years ago Alberta's turkey population was something like 30,000 head, valued at \$350,000. Now is estimated at 614,000 head, valued at \$1,150,000. Every year between 50 and 70 carloads of turkeys go out of the province to enrich the festive yard of many centres in Eastern Canada and the United States. This year one commission agent in the United States has indicated that he may want 25 or 30 or possibly 50 carloads of turkeys for his own clients at the markets in New York and her large American cities.

So much for the ordinary commercial end of the turkey business. But in its breeding stock that due to a made real advancement due to a turkey improvement (Record of merit) in which Alberta was first the field among the provinces. This work was started in 1927, when 1,100 birds were approved under the Record of Merit plan. Last year 2,200 birds had been approved. As an example of the improvement brought out in one district alone by organized turkey improvement work, it is noted that since 1922, in this particular district, the average weight of birds of both sexes has been raised from 9.4 pounds to 12.7 pounds in 1929. Alberta was the first province to announce publicly, means of sales catalogues, the government inspected and banded breeding stock for sale. The R.O.M. has not only been introduced into other provinces, but also into the states of Idaho and Montana.

Brooding turkey stock from Alberta has been shipped as far as America, and numbers of birds are shipped each year to Saskatchewan, Manitoba, British Columbia and Ontario.

The turkey championship of Canada came to Alberta this year by the success of Miss Caroline Morgan, young school teacher near Vermilion, Alta., who won at the Toronto Royal Fair just concluded. Miss Morgan raises turkeys as a side line, and has gone in enthusiastically for producing high quality breeding stock. The Championship was taken in an exhibit of 179 birds from all parts of Canada. In addition Alberta turkey breeders at Toronto Royal won two firsts, one fourth two fifths, two sixths and one seventh prize. Last year the winners were one first, two seconds, one third, two fourths, one fifth and one seventh.

INDEPENDENT BUYING PLAN IS UNFOLDED

Toronto, Dec. 3.—Plans for institution of an independent hog-buying system which would prevent surplus production undermining markets and would set and maintain prices in Canada were unfolded Wednesday at the annual meeting of the United Farmers of Ontario by H. S. Arkell, director of the Canada Livestock Co-operative Limited, and former Dominion livestock commissioner.

The plan had already been approved by the Saskatchewan producers, he said. Manitoba producers were to meet today and those of Quebec within a week to consider it. If Ontario's co-operative joined the movement, he said, control of the domestic price and the exportable surplus of hogs would be held by the Dominion co-operative.

In explanation of the plan dealing with hog production and prices, which he had suggested before the round table conference of the Canadian Chamber of Commerce a week ago, Mr. Arkell said Canada slaughtered 60,000 hogs a week, of which only 3,000 were for export. Yet, because of this export market offering a sale for hogs, it controlled Canadian domestic prices; in other words, he said, buyers controlled prices by taking advantage of the world price.

A city lady visited one of our country homes the other day. Looking over the stock she said: "Hans! that cow got a lovely coat?" "Yes," was the reply, "it's a Jersey." "Is it really," she exclaimed, "Why I thought it was its skin."

Up at the Club the other day two old timers sat over a game of cards. "Was that card a seven of cards," "Yes," said one, "a spade?" asked one. "It was, but what made you think so?" asked the other. "I knew it was a spade, because you looked at it, then spit on your hands before you picked it up."

"ROWAN" CROWS ARE HEADING TO NORTH

"Rowan" crows are heading north. Reports received during the week end indicated that the experiment conducted by Professor William Rowan of the University of Alberta has met with success and that he has managed so to change the migratory instinct of crows that, in the midst of winter cold, they are heading northwards instead of towards warm southern climes.

Crows, which have painted tail feathers to make them easily distinguishable, have been reported at Altus, 50 miles north of the point where they were released, near Hanna.

A report from Edmonton indicated that one crow, bearing the distinguishing marks, had been seen passing over that city and continuing on towards the north.

Several crows have been shot in the district north of Hanna and have been forwarded to Professor Rowan. The experimenter expressed satisfaction at the results so far obtained. Relief has been voiced that some of the treated crows may find their way as far north as Great Slave Lake, where crows during the winter season are entirely unknown.

The northbound crows are believed to have been those which received artificial light treatment, it being the belief of the professor that migration is controlled by the influence of light on the ductless glands of the birds. A number of the 350 crows released had not received the treatment—Alberta.

GAS TAX BOOST

Edmonton, Dec. 5.—No increase in the gasoline tax, all traffic regulations to be made by the provincial government, lights to be carried by all vehicles on highways at night were demanded in some of the main resolutions adopted at the annual

meeting of the Alberta Motor Association here Friday evening.

Relieve
that pain
safely

You can always relieve that ache or pain harmlessly with Aspirin. Even those deep-seated pains that make a man's very bones ache. Even the systemic pains so many women suffer. They will yield to these tablets! Genuine Aspirin has many important uses. Read the proven directions in every package of genuine Aspirin, and don't endure any needless pains from neuralgia, neuritis, rheumatism.

Keep a bottle of these tablets in the house; carry the pocket tin if subject to unexpected headaches, sudden colds. Quick relief without any harmful effects; Aspirin does not depress the heart. Just look each time for the name Aspirin—and the word genuine printed in red on every box. Every drugist has genuine Aspirin, and if you get the genuine tablets you are sure to get relief.

Frede Elbert of Wetaskiwin, is visiting with his folks here this week.

FALUN

The annual meeting of the W. I. was held at the home of Mrs. Isaacson on Saturday afternoon, with 17 members present and also a number of visitors.

After the general business, the chairman called for nominations of officers for the following year, and officers elected were: President,

12th. Special subject for this meeting will be the referendum of the Wheat Pool. Four members of the local have agreed to take one each of the four alternatives proposed and to give a talk on each.

HABITS

The habits of life are important because upon them depend so much of the happiness and success of life. Unless the child learns early in life how to live happily with other people and get along well with them, he will, when he grows up, meet with difficulties on account of his inability to mix with other people in his business and social life.

If we are to achieve success in work, and at the same time, enjoy our daily task, more than anything else, we need to form good habits. Such habits, in adult life, are the result of the building up, in childhood, of habits in promptness and in finding pleasure in work well done.

Children acquire habits very readily, regardless of whether the habits are good or bad. The baby soon demands that mother continue to sit with him while he goes to sleep. If she has once started to do so. It is used to be thought that a baby should be rocked to sleep because, after he had been rocked for a few times, he cried when he was not put to sleep in this way. We know now that it is far better for the baby to be placed in his bed and left quiet and alone for his sleep.

There is one habit which is both undesirable and dangerous, and yet it

the result of the pressure due to the continued sucking. The condition of projecting upper teeth with a short, tight upper lip, is another deformity caused by the comfort.

In addition, comforts cannot be kept clean. They are sure to become soiled, and very apt to become contaminated with germs which are carried into the baby's mouth with the comfort.

There is one place a comfort should never be, and that is in the baby's mouth.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

DEFENDING THEIR DYING MISTRESS

Two loyal collie dogs sacrificed their lives at Macleod on Wednesday in a heroic display of canine loyalty for their mistress. Mrs. William Anderson, 77-year-old widow, who lived alone with her dogs since her husband's death three years ago, Neighbors had not seen Mrs. Anderson for several days and becoming alarmed informed police, who found the woman lying on her bed. When police arrived at the house the dogs attacked them. A bitter struggle ensued between the men and the aged woman's protectors. The officers finally had to shoot the collies before they could gain entry to the house, where they found Mrs. Anderson unconscious. Taken to hospital, the aged woman died several hours later.

used for the Christmas season.

Saturday last was another record day for the giving out of books and enrolling of new members, the library service is certainly increasing.

It should not be overlooked that the library has several valuable sets of volumes on its shelves, such as "Bakers of Canada," "History of Alberta," and the complete sets of Sir Walter Scott's works, and novels of Charles Dickens.

A shelf of books that should not be missed by those interested in literature is the series of the World's Great Classics, which contains some of the finest thoughts in the literature of the different countries of the world.

A supply of new books is expected to arrive in time for the Christmas season, which will include some of the latest published. There will also be a number of new books added for the use of boys and girls.

WHY BURN STRAW STACKS?

When with the use of suitable chemicals they can be converted into manure the question "Why burn straw stacks?" is really pertinent. Straw is worth something more than a bedding material and not the least valuable is its use for the making of artificial manure. The use of 100 pounds of ammonium sulphate and 100 pounds of lime to each ton of straw, and this thoroughly soaked with water produces a manure of distinct fertilizer value. From three to six months are required for the organic changes to become effective and the resultant substance has much of the appearance and practically the same value as barnyard manure.

The northbound train leaves Altham yard at 10 o'clock in the morning, arriving at Red Deer 3 o'clock in the afternoon, and South Edmonton at 10 o'clock at night.

H. C. BERGER

TO THE ELECTORS OF THE CITY OF WETASKIWIN

Ladies and Gentlemen:

Yielding to the urgent request of many of my supporters, I have consented to become a candidate for the office of Mayor for 1932. My service as Alderman for some ten years has given me an insight into Municipal affairs in Wetaskiwin, and it entrusted to occupy the highest office in this City, I will as in the past, carry out the duties of the office to the best of my ability. I therefore ask for your votes at the polls on Monday next.

Yours respectfully,
GEO. L. GOTHARD

WHO'S WHO AND WHY

J. W. Somers is a candidate this year for the position of Mayor of our city. Although Mr. Somers is well known as one of our respected business men, he is perhaps better known for his interest in athletics, and the active part he has taken in community work, but little is known of him in respect to his interest and experience in municipal affairs. We find that he has had a real schooling in municipal affairs previous to coming to Wetaskiwin. He served for several years on the Town Council and was a greater portion of that time chairman of the finance committee. Anyone knowing the trying times through which that town passed, after the gas boom, can fully realize the amount of work and responsibility attached to the position that Mr. Somers held. He informs us that had to be given to successfully fill any municipal office, he would not consent to accept any nomination for municipal office, until such time as he felt he was established in his new home long enough that he could afford to take the time away from his business. He has lived now in Wetaskiwin about 10 years, and is to be commended for offering his services to the city, when without doubt, a great deal of time will have to be given to civic affairs. We know that the position of Mayor requires a lot of work and considerable tact and ability to successfully satisfy everyone. We feel sure that Mr. Somers will meet all these requirements in a very satisfactory way. See that he is put there by giving him your vote on Monday.

TO THE RATEPAYERS OF THE WETASKIWIN SCHOOL DIST.

Ladies and Gentlemen:

As I am a candidate for the office of Public School trustee, I cordially solicit your support on Monday next. I taught school for ten years in Alberta, and if elected, I will endeavor to keep the Wetaskiwin schools in the front of educational centres. I will also advocate fair treatment for teacher, pupil and parent alike.

If honored by your confidence, I will perform my public duties to the best of my ability at all times.

Yours respectfully,
N. OSWALD

TO THE ELECTORS OF THE CITY OF WETASKIWIN

Ladies and Gentlemen:

Having committed to stand for re-election as an Alderman, I cordially solicit your votes and influence at the polls on Monday next. I have served the city to the best of my ability during the several years I have been honored with your confidence, and if re-elected, I promise to give the same close attention to the welfare of Wetaskiwin that I have given in the past.

Yours respectfully,
HARRY BROWN.

Taxes come high in England. While the taxes there amount to more than \$75 per year per person, the rate in France is only about \$40 and in Germany \$25.

WHEAT—WHAT IS IT?

Wheat is a seed that is planted and grown in the Northwest to keep the producers broke and the buyers crazy.

The protein varies in content and the man who can guess nearest the strength of the protein is called a "wheat grader" by the public and "fool" by the farmer. The price of wheat is determined at primary markets, and goes up when you have sold, and down when you have bought.

A buyer working for a group of mills was sent to Minneapolis to watch the wheat markets and after a few days wired his interests to this effect: "Some think

it will go up, and some think it will go down; I do, too. Whatever you do will be wrong. Act at once."

Wheat is planted in the spring. Be damned if you do mortgage in the summer and And be damned if you don't.

NEW SWEDEN

Mr. and Mrs. Albin Swanson, Ralph, Mr. Wickstrom and Charlie Swanson, visited at Carl Eliason's of Winfield, last Saturday.

Hugo Schnee surprised both relatives and friends last week, when he returned from Edmonton with a bride. Congratulations.

The Baptist Ladies Aid met last Thursday at the home of Mr. and Mrs. G. N. Eason.

Ernest Harrie entertained a large crowd last Sunday evening, the occasion of Myrtle Johnson, a bride of the

son being his twenty-fifth birthday. A very enjoyable time was had by all. The sale held by the W.M.S. at the Angus Ridge hall on Friday, was a decided success.

The young people of New Sweden and Wetaskiwin have been enjoying several skating parties at the river during the past two weeks.

Mrs. Wm. Gray of Edmonton, was a guest at Roy Harrie's last week. Mrs. Evelyn Eliason spent a few days at Palun, a guest at the Sprules home.

Messrs. Matt and G. W. Johns returned from a very successful moose hunt, having bagged their limit before returning.

Milton Doupe, made a trip out west last week. John Jones spent the weekend at the home of Mr. and Mrs. Wingblad.

The New Sweden quartette was heard over the radio, singing from Beniah Tabernacle, on Sunday.

There will be an interesting debate at Nashville school on December 17. Seats free and no collection.

Mrs. P. Pearson has been very ill during the past two weeks.

Melvin Ballhorn has had a slight attack of flu.

Roy Harris has installed a radio.

J. E. Larson of Strome, visited with relatives here over last weekend.

GWYNNE

Soren Maygard and Essell Richards motored to Edmonton last week, where they spent a few days visiting Soren's sister Mrs. K. Tangen, and brother Fred. They returned home Saturday.

E. Womack, Bob, Arthur and Bill, are up in the Peace River country building on their homesteads.

Ben Waters and Percy Doel returned on Thursday night from a week's hunting trip west of Edmonton, and brought back a big moose.

Quite a crowd enjoyed the dance at Crooked Lake school last Friday.

H. Twa purchased a Ford coupe last week.

Miss Esther Dahlberg came to Gwynne last Sunday for work for Mrs. W. J. Gillespie.

A miscellaneous shower was held at Ernest Harrie's on Monday evening in honor of Myrtle Johnson, a bride of the

near future. There was quite a crowd present in spite of the cold weather, and she received many pretty and useful gifts. The evening was spent in playing games.

Mr. and Mrs. John Maygard celebrated their twentieth anniversary last Monday, Dec. 7th.

NAVARRE

We are glad to hear that little Norman Johnson is getting along very nicely after undergoing an operation for appendicitis in the Wetaskiwin hospital.

Miss Andrea Thorsen left last Saturday for Stony Plain, where she will spend a few days.

Miss Marion Lundell of Edmonton, spent the week-end with her parents, Mr. and Mrs. Emil Lundell.

The recent snow flurry has finished the skating on Pigeon Lake for this year it seems.

Mr. J. Gurston finished his house here this week, and has moved his family here.

Mr. and Mrs. Jack Hempstock gave a dance in their home Saturday night. An enjoyable time was had by all.

(Intended for last week) Mr. Art Norman, of Wetaskiwin, has moved his household effects to his cottage at Snell's mill. His wife and baby will follow him soon.

The Christmas season has opened in earnest. Several of the district farmers have taken their turkeys and poultry to Edmonton, where we understand, they receive a good price for them.

Mr. Jack Gintson of Wetaskiwin, has moved with his wife and family to reside at Snell's mill.

Several cars were seen on the ice on Sunday last, but it was reported that one broke through.

There are several newcomers at Snell's mill. They are, Max Fulton of Edmonton, and Jim McCrae and Cyril Chapman of Wetaskiwin.

The peace at Snell's mill was disturbed Sunday evening, by the call of fire, when a blaze was discovered on Leemann's roof. The bucket brigade turned out in full force and the fire was soon put out.

Art Norman met with an accident Monday, when the truck he was driving collided with an unknown truck at the intersection of the Camrose and Calgary trails.

Jim McCrae was taken to Wetaskiwin Tuesday, when his leg was injured by a rolling log, at Snell's mill.

BITTERN LAKE

Mr. and Mrs. F. A. Peterson and children of Ponoka, visited over the weekend with the former's brother, A. L. Peterson and family.

The dance in the community hall last Wednesday evening was a real success. The music was excellent and we hope the hockey team will favor us with some more dances.

FALUN

The annual meeting of the W. I. was held at the home of Mrs. Isaacson on Saturday afternoon, with 17 members present and also a number of visitors.

After the general business, the chairman called for nominations of officers for the following year, and officers elected were: President,

APPROVE MRS. TURKEY CHAMPIONSHIP RELIEF CANADA CO.

Minister Sir George Mr. Edmonton, Alberta that applica-

has been "talked" or corpora-

Shadavast... Mrs. Jones, and Mrs. R. V. "Social" convenor—Mrs. Steed-

man, Auditor, Mr. Rattray. The meeting adjourned to a tasty lunch served by Mrs. Isaacson, Mrs. Chap-

man and Mrs. Steedman. The next meeting will be held at the home of Mrs. O. Lindstrom.

Mrs. C. W. Shantz and daughter Ruthie of Rocky Mountain, House, are visiting the former's sister, Mrs. O. Mattson.

They are making great progress with the skating rink during the cold snap.

BATTLE LAKE

The many friends of Mrs. F. C. Papineau, will regret to learn that she is in the Wetaskiwin hospital, quite ill with pneumonia.

Mrs. Ben Flesher and baby Bennie, who have been visiting the former's parents, Mr. and Mrs. York, returned to their home last Tuesday.

Rev. Munady of Calgary, who has been holding special services at Brightview, the past week, took charge of the service in the Battle Lake church on Sunday morning.

Billie Young and Emil Effert left Thursday for Buck Lake district, where they are doing some big game hunting.

Charlie Freeman and Albert Nadeau have moved their mill south of the lake, where they expect to saw this winter.

Willam Jones, who has been ill the past few days, is able to attend school again.

LONE RIDGE U.F.A.

The regular monthly meeting of the above local was held on Tuesday, Dec. 8th, at Lone Ridge hall. This was the annual meeting and election of officers for the ensuing year.

After the regular business, the financial statement for the year was submitted and approved, the local being in very good financial standing.

The meeting then proceeded to the election of officers. C. J. Hanson was elected president, with O. A. Alberg as vice-

president, T. S. Steadman as secretary-treasurer, and B. S. Wallis as publicity agent and auditor.

The retiring president, A. P. Ewart, strongly urged the Local to endeavor to obtain a stronger membership, pointing out that the recent financial stringency had depleted the membership, but which should be regained if efforts to that end were made.

Mr. Ewart was the recipient of a hearty vote of thanks for his services as president for the past two years.

The entertainment committee for the debate on Tuesday next, reported that it had been decided to put on a short program apart from the debate, in which local artists will assist.

Following the debate, refreshments will be served and an impromptu dance will follow. The debate, "Resolved that the Dominion should provide free hospitalization and medical attention for all its people," is a very interesting one, and one that touches everybody.

All are urged to attend and hear the arguments on both sides of this question. Lone Ridge will take the affirmative, and will be represented by B. S. Wallis and E. E. Sparks.

Children's Day will again be sponsored by the local. On Dec. 28, at 2 p.m. in Lone Ridge hall, every child in the district under 18 years is invited to attend, when some little Christmas treat will be provided, with games and a general good time.

The next meeting of the local will be a very interesting one, on January 12th. Special subject for this meeting will be the referendum of the Wheat Pool. Four members of the local have agreed to take one each of the four alternatives proposed and to give a talk on each.

HABITS

The habits of life are important because upon them depend so much of the happiness and success of life. Unless the child learns early in life how to live happily with other people and get along well with them, he will, when he grows up, meet with difficulties on account of his inability to mix with other people in his business and social life.

If we are to achieve success in work, and at the same time, enjoy our daily task, more than anything else, we need to form good habits. Such habits, in adult life, are the result of the building up, in childhood, of habits in promptness and in finding pleasure in work well done.

Children acquire habits very readily, regardless of whether the habits are good or bad. The baby soon de-

mands that mother continue to sit with him while he goes to sleep. If she has once started to do so, it is hard to be thought that a baby should be rocked to sleep because, after he had been rocked for a few times, he cried when he was not put to sleep in this way. We know now that it is far better for the baby to be placed in his bed and left quiet and alone for his sleep.

There is one habit which is both undesirable and dangerous, and yet it

perators. We refer to the habit of the comfort or "pacifier."

It is not natural for a child to have something in his mouth all the time. The fact that he cries for it does not show that the comfort is good for him. He does so simply because he has been given the habit.

Not only is the comfort not necessary, but it is actually harmful. True, the baby stops crying when he gets it, but he stops because he has got what he wants, and not because the comfort soothes him. As a matter of fact, the continued sucking irritates the arch of the mouth. Baby's bones are soft and yielding, and so they become permanently misshapen as the result of the pressure due to the continued sucking. The condition of projecting upper teeth with a short, tight upper lip, is another deformity caused by the comfort.

In addition, comforts cannot be kept clean. They are sure to become soiled, and very apt to become contaminated with germs which are carried into the baby's mouth with the comfort.

There is one place a comfort should never be, and that is in the baby's mouth.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

DEFENDING THEIR DYING MISTRESS

Two loyal "collie dogs" sacrificed their lives at Macleod on Wednesday in a heroic display of canine loyalty for their mistress. Mrs. William Anderson, 77-year-old widow, who lived alone with her dogs since her husband's death three years ago. Neighbor had not seen Mrs. Anderson for several days and becoming alarmed informed police, who found the woman dying on her bed. When police arrived at the house the dogs attacked them. A bitter struggle ensued between the men and the aged woman's protectors. The officers finally had to shoot the collies before they could gain entry to the house, where they found Mrs. Anderson unconscious. Taken to hospital, the aged woman died several hours later.

Lecturing Knight—E. Merner
Treasurer—W. Gibson
Secretary—R. E. Schmitz
Tyler—H. Grant
Inner Guard—F. B. Kellner
Trustee—D. Baker
Chaplain—W. Gibson
Esquire—V. E. Liversidge

Special Notice—Please note the library will be closed next Monday, Dec. 14th, owing to the library being used for the elections that day.

Saturday last was another record day for the giving out of books and enrolling of new members, the library service is certainly increasing.

The library has several valuable sets of volumes on its shelves, such as "Makers of Canada," "History of Alberta," and the complete sets of Sir Walter Scott's works, and novels of Charles Dickens.

A shelf of books that should not be missed by those interested in literature is the series of the "World's Great Classics," which contains some of the finest thoughts in the literature of the different countries of the world.

A supply of new books is expected to arrive in time for the Christmas season, which will include some of the latest published. There will also be a number of new books added for the use of boys and girls.

WHY BURN STRAW STACKS?
When with the use of suitable chemicals they can be converted into manure the question "Why burn straw stacks?" is really pertinent.

Straw is worth something more than a bedding material and not the least valuable is its use for the making of artificial manure. The use of 100 pounds of ammonium sulphate and 100 pounds of lime to each ton of straw, and this thoroughly soaked with water produces a manure of distinct fertilizer value. From three to six months are required for the organic changes to become effective and the resultant substance has much of the appearance and practically the same value as barnyard manure.

C.P.R. STARTING MIXED TRAINS TO EDMONTON

In an effort to meet through motor truck and bus competition, the Canadian Pacific Railway has decided to operate a mixed train service daily between Altham yard, Calgary, and South Edmonton, commencing December 21st.

Trains will stop on flag signal at various points to handle passengers, and it is anticipated that the service, in conjunction with the regular passenger service of three trains daily each day will be of considerable value to commercial travellers and others who wish to cover several towns in one day.

This new service will also considerably speed up through freight traffic service between Calgary, Red Deer and Edmonton.

The northbound train leaves Altham yard at 10 o'clock in the morning, arriving at Red Deer 3 o'clock in the afternoon, and South Edmonton at 10 o'clock at night.

H. C. BERGER

TO THE ELECTORS OF THE CITY OF WETASKIWIN

Ladies and Gentlemen:
Yielding to the urgent request of many of my supporters, I have consented to become a candidate for the office of Mayor for 1932. My service as Alderman for some ten years has given me an insight into Municipal affairs in Wetaskiwin, and I am entrusted to occupy the highest office in this City. I will as in the past, carry out the duties of the office to the best of my ability. I therefore ask for your votes at the polls on Monday next.

Yours respectfully,
GEO. L. GOTHARD.

WHO'S WHO AND WHY

J. W. Somers is a candidate this year for the position of Mayor of our city. Although Mr. Somers is well known as one of our respected business men, he is perhaps better known for his interest in athletics, and the active part he has taken in community work, but little is known of him in respect to his interest and experience in municipal affairs. We find that he has had a real schooling in municipal affairs previous to coming to Wetaskiwin. He served for several years on the Totfield Council and was a greater portion of that time chairman of the finance committee. Anyone knowing the trying times through which that town passed, after the gas boom, can fully realize the amount of work and responsibility attached to the position that Mr. Somers held. He informs us that knowing the amount of time that had to be given to successfully fill any municipal office, he would not consent to accept any nomination for municipal office, until such time as he felt he was established in his new home long enough that he could afford to take the time away from his business. He has lived now in Wetaskiwin about 10 years, and is to be commended for offering his services to the city, when without doubt, a great deal of time will have to be given to civic affairs. We know that the position of Mayor requires a lot of work, and considerable tact and ability to successfully satisfy everyone. We feel sure that Mr. Somers will meet all these requirements in a very satisfactory way. See that he is put there by giving him your vote on Monday.

TO THE RATEPAYERS OF THE WETASKIWIN SCHOOL DIST.

Ladies and Gentlemen:
As I am a candidate for the office of Public School trustee, I cordially solicit your support on Monday next. I taught school for ten years in Alberta, and if elected, I will endeavor to keep the Wetaskiwin schools in the front as educational centres. I will also advocate fair treatment for teacher pupil and parent alike. If honored by your confidence, I will perform my public duties to the best of my ability at all times.

Yours respectfully,
N. OSWALD.

TO THE ELECTORS OF THE CITY OF WETASKIWIN

Ladies and Gentlemen:
Having consented to stand for reelection as an Alderman, I cordially solicit your votes and influence at the polls on Monday next. I have served the city to the best of my ability during the several years I have been honored with your confidence, and if re-elected, I promise to give the same close attention to the welfare of Wetaskiwin that I have given in the past.

Yours respectfully,
HARRY BROWN.

RATEPAYERS' Annual Meeting

The annual meeting of the ratepayers of the City of Wetaskiwin will be held in the lounge room of the Driard Hotel (not in the Council Chamber as formerly announced) on THURSDAY EVENING of this week at 8 o'clock. The reports of the city officials for the past year will be given, and candidates for office at the forthcoming election will be given an opportunity to address the meeting. Everybody urged to attend.

B. D. HOWATT, Mayor.

Yours respectfully,
RALPH E. SCHMITZ.

Taxes come high in England. While the taxes there amount to more than \$75 per year per person, the rate in France is only about \$40 and in Germany \$25.

WHEAT—WHAT IS IT?

Wheat is a seed that is planted and grown in the Northwest to keep the producers broke and the buyers crazy. The protein varies in content and the man who can guess nearest the strength of the protein is called a "wheat grader" by the public and "fool" by the farmer. The price of wheat is determined at primary markets, and goes up when you have sold, and down when you have bought.

YOU SHOULD KNOW

You should know certain things so that you may be able to act in such a manner as to protect your own health and that of your family. The success which has been achieved in controlling certain diseases is the result of chance. It has come about as the result of our having acquired enough knowledge about these particular diseases to enable us to overcome them to some extent.

In the same way, personal health and freedom from disease come to us when we make use of the knowledge which we now possess. Smallpox is no-existent when vaccination is practised. Rickets disappears as the result of proper feeding. Pure water and safe milk prevent the occurrence of typhoid fever.

You should know that each year, in Canada, over eight thousand persons die from tuberculosis. You should know that when it is discovered early and properly treated, tuber-

culosis is one of the most curable of diseases.

Knowing these two statements to be correct, you are then in a position to say that the large number of deaths must be due to failure in discovering the disease in its early stages, or that the case are not being properly treated.

Those of our readers who follow our advice and have a health examination each year give their family physician an opportunity to discover tuberculosis, cancer and other diseases in their earliest and most curable stage.

It is not possible to teach the public how to detect disease early. It is much more difficult to make a diagnosis in the early stage of a disease than it is later on. The general idea of a tuberculosis person is one who is thin, looks ill and has a cough. This is the usual condition when the disease is advanced, but in the early stages, the patient appears to be well, and nothing in his general appearance arouses suspicion.

Not everyone with the following symptoms has tuberculosis, but the presence of one or more of them is sufficient to arouse suspicion, and to send the individual to his doctor to find out the cause.

A feeling of fatigue from work which did not previously cause fatigue.

Loss of strength or weight, which may be accompanied by a general feeling of not being well.

Any cough which persists for a month or more.

Continued upset of digestion, which may be associated with a cough. Spitting of blood.

It is better to be on the safe side. Prompt attention to early symptoms means early treatment if it is needed, and early treatment means cure.

Questions concerning health, addressed to the Canadian Medical Association, 134 College Street, Toronto, will be answered personally by letter.

CHAMPION WHEAT GROWER HONORED

Red Deer, Dec. 8.—Footing the 1931 champion wheat grower of Alberta, the Red Deer Board of Trade and Red Deer Agricultural Society combined Friday night to stage one of the biggest banquet functions of the year in honor of James Hazlett, Red Deer farmer, who won the department of agriculture province-wide competition for the best ten acres of standing wheat grown this year, and who also took top honors in the special contest sponsored by the Calgary Kiviana Club Southern Alberta trophy for wheat growing, besides the local agricultural society's annual field grain competition held in connection with their summer fair.

Many prominent men of Calgary and Edmonton and more local parts were present.

CANADA LEADS BIG SHOW WITH 20 CHAMPIONS

Chicago, Dec. 5.—As meat monarchs were crowned and scepters in 200 different exhibits were wrested from their former owners at the last day of the International Livestock exposition, it was found that Canada had taken 20 championships, ten in the cattle awards and ten in agricultural divisions to mark it as the highest of all territorial entrants. The state of Iowa tied for honors with ten titles. Next closest was Oklahoma with seven.

Ontario led in the number of livestock crowns with nine, J. B. Falconer, of Guelph, taking the other with the grand champion Clydesdale Lochinvar. As Ontario already had taken three crowns in the grain and seed exhibits, she leads the provinces as to crowns and total number of first awards.

Alberta is second, though she had no entrants in the livestock exhibits. Her agricultural exhibits were so excellent, however, as to assure her a very sure second. Ontario leads the Dominion as to the total number of firsts, taking altogether approximately 219.

Saskatchewan and Manitoba each took a championship. The former for the champion Clydesdale and the latter for the winning sweet clover crown.

Princess Elizabeth's photograph will appear on a stamp for the first time when a new issue of Newfoundland postage stamps is issued on January 2, 1932. The portrait of the Duke of York's daughter will be used on a six-cent stamp.

PUBLIC NOTICE

MUN. DISTRICT OF MONTGOMERY NO. 458

Public Notice is hereby given that there has been introduced, in the Council of the Rural Municipality of Montgomery No. 458 a by-law of which the following is a short synopsis; and that a copy of the same may be seen in each of the following places:

The Office of the Municipality;
Post Office, Wetaskiwin;
Post Office, Millet;
Post Office, Gwynne;
Post Office, Bittern Lake;
Post Office, Malmoe;
School House, Peace Hill;
School House, Larch Tree;
School House, John Knox;
School House, Bear's Hill;
School House, Battle River;
School House, Haultain;
School House, Rose Briar;
School House, Star;
School House, Roseland;

and further that unless within thirty days from the publication of this notice, at least fifteen per cent of the proprietary electors of the Municipal District petition the Council to submit such by-law to the vote of the proprietary electors of the Municipal District, the Council will proceed to pass the same.

By-Law No. 315
A Bylaw of the Municipal District of Montgomery No. 458 for the purpose of making a grant and contributing to the erection and maintenance of a proposed public hospital to be erected in the City of Wetaskiwin.

Whereas in the opinion of the Municipal District of Montgomery No. 458, a public hospital would be an asset of great value to the residents of the said Municipal District; and whereas it has been represented to the Council that the City of Wetaskiwin is prepared, subject to an agreement being entered upon, between the said City and the said Municipal District to pledge the credit of the said City in the sum of twenty-seven thousand dollars (\$27,000.00), for the purpose of erecting a Public Hospital in the said City, conditional that the said Municipal District of Montgomery No. 458, shall contribute and pay as its share, to the said City, the sum of fifteen thousand dollars (\$15,000.00), for the purpose aforementioned.

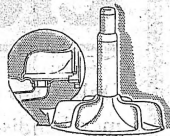

And whereas it is desirable and advisable for the Municipal District to provide hospital facilities for the care and treatment of persons resident within its area.

NOW THEREFORE, the Council, duly assembled, enacts as follows: That the sum of fifteen thousand (\$15,000.00) dollars, be paid towards the erection of a public hospital in the City of Wetaskiwin, and that the said sum shall be paid to the said City as and when required during the next fifteen years, together with any interest which may be due and payable, which interest shall be at the same rate per annum as that at which the borrowing (if any) is made by the said City, the first payment to be made at a time agreed upon.

That an agreement shall be made with the said City for the erection and maintenance of a public hospital, and for the care and treatment of residents of the said Municipal District in accordance with the provisions of the Hospitals Act.

That the Reeve and Secretary-Treasurer are hereby authorized and empowered to make, enter into and execute on behalf of the District an agreement for the purposes aforesaid and to do all necessary acts upon or for the execution of the same.

washes better

YOU can see for yourself why the NORTHERN ELECTRIC ABC Washer does your washing with greater speed and thoroughness than other machines of equal capacity.

The agitator, which churns the washing, has six large fins... more than any other washer. Each one gives a strong impulse... a total of six hundred impulses per minute... which drives the soapy water through the fabrics with tremendous force.

The fins are so perfectly rounded and polished that they cannot exert any wear on the garments. Even the agitator edge... sunk below the tub level and held rigid by two anti-tilt bearings... cannot catch or damage the fabrics.

There are other reasons, too, for the efficiency of the A B C. Northern Electric has thoroughly tested all the parts and qualities of this made-in-Canada washer before awarding it the Northern Electric "SEAL OF APPROVAL" which assures you of its great merit.

STRONG ANNUAL STATEMENT ISSUED BY BANK OF MONTREAL

Replete with indications of marked strength and reflecting ability under exceptional conditions to maintain its usual liquid position, the Bank of Montreal annual statement makes its appearance at a most opportune time. Shareholders have grown accustomed to recognize the traditional strength of the Bank's position. This year, however, so many different interests have been looking forward to the appearance of the report that its showing will have a special significance in every part of the country.

The presentation of the statement in easily understandable form—elsewhere in this issue—will, therefore, attract wide attention and will greatly facilitate a proper understanding of many of its features.

One of the satisfactory features is a very large increase in the holdings of high class securities, such as government and municipal issues. It will likely occasion some surprise that under unfavorable conditions current loans have held equal to the figures of last year, while savings deposits continue, to make a most satisfactory showing.

Profits for the year, as had been anticipated, are below the level of the past few years. They were, however, ample to take care of the regular dividend to shareholders and, after permitting of the provision for Dominion Government taxes and a reservation for bank premises, were sufficient to allow of a further contribution to profit and loss account.

They did not, however, permit of any bonus to shareholders.

The Bank reports that with its total assets of \$794,823,333 it has liabilities to the public of \$718,320,729, which leaves an excess of assets over these liabilities in the form of capital, surplus, undivided profits and reserves for dividends, of \$76,492,604.

Profits for the year were \$5,388,379, equal to 7.15% on the combined capital, rest and undivided profits, as compared with \$6,519,031 in the previous year. From these, payments made were dividends to shareholders of \$4,320,000; provision for taxes Dominion Government of \$610,000; reservation for bank premises of \$300,000; leaving a balance of \$156,379, which brought profit and loss to be carried forward up to \$1,103,426.

TWO SIDES TO MOST QUESTIONS

A correspondent sends a cutting from the Vegreville Observer, Alberta, telling of the opening not long ago of a new wing, of one hundred and two rooms, at the Fort Saskatchewan jail. It was opened officially with considerable eclat: "The Salvation Army band" (livened the proceedings and ladies served refreshments. A few years ago there was general rejoicing in the province that our jail population was on the decrease. However, those were the sombre years when the sale of intoxicating beverages was illegal, but in these halcyon days it is considered an achievement worthy of congratulation to increase our jail accommodation.—The New Outlook.

NATIONAL LOAN OVER SUBSCRIBED BY \$65,000,000

Ottawa, Dec. 4.—Total subscriptions for the national service loan amounted to more than \$215,000,000 when the books were closed. It was made known Thursday night in a statement issued by Hon. E. N. Rhodes, acting minister of finance. The government will accept the full amount subscribed.

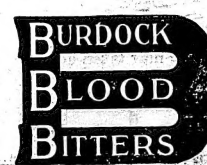

The excess over \$150,000,000 is to be used for the purpose of redeeming outstanding obligations of the Dominion of Canada in the form of

treasury bills and bonds. Steps already have been taken to put this program into operation and when completed the net increase in the obligations of the Dominion of Canada will be \$150,000,000.

The "MARRIAGE" of THE WHITE HORSE

"WHITE HORSE" is Real Old Scotch. First matured and then blended, it is again matured and reblended, so that the whisky becomes properly married. This marrying of "WHITE HORSE" is a very lengthy process and the result is a right noble spirit of subtle and distinctive aroma and bouquet, soft, smooth and very pleasing to the palate, without a trace of kick or bite.

As a heart tonic and digestive
"WHITE HORSE" stands supreme.

LADIES' AID BAZAAR

The Ladies' Aid wish to cordially thank all who so generously helped to make their bazaar so successful. All the booths were attractively decorated and looked very Christmasy and cheery. A novel feature was added when the oldest lady in town, Grandma Anderson, churned a ticket on "Afghan" and cushion in an old-fashioned churn. Mrs. Anderson is over 86 years old, still hale and hearty, and even does custom wool spinning at times for recreation. Mrs. Bert Furlong was the lucky winner of the Afghan, while Lorne Carney got the cushion. Those who presided at the booths were: Sewing and fancy work, Mesdames West, Higginson, B. Pogue, Cliff Wagner, and Miss Thompson candy, Mesdames Billy Karr, G. Inglis; fishpond, Mesdames Dowler and Simpson; novelty, Mrs. C. A. Kent; home cooking, Mesdames Facey, McDougall and Fanson; tea tables, Mesdames G. Brinker, P. Aikens, H. Pogue, R. Gibling and K. Kerr.

SHOWER FOR BRIDE-TO-BE

On the evening of December 3rd, the Millet girls indoor baseball club gathered at the home of Mrs. Herb Pogue, in honor of Miss Blanche Van Volkenburg, a December bride-to-be. About twenty members were present, all of whom joined in the gaiety of the evening. Miss Van Volkenburg was the recipient of many gifts, all of which will be very useful in her new home. At twelve o'clock, a dainty lunch was served by Mesdames Pogue and Theriault, assisted by Miss Mary Steuhmer. The pleasant evening was brought to a close by expressions of the best of wishes for the guest of honor, who fittingly replied, thanking her friends for their good wishes and useful gifts.

NEW HOME DESTROYED BY FIRE

Late on Saturday evening, a fire of unknown origin destroyed the new home of Mr. and Mrs. Collicutt, which was only built a short time ago. Mr. Collicutt was away with the two older children, and Mrs. Collicutt and the two younger kiddies were alone at the time the fire started. The two small children were put to bed for the night and Mrs. Collicutt had lain down on the bed with the youngest, who was restless. She thinks she must have fallen asleep also, for she was awakened by smoke which filled the rooms. Rising, she found the home all in flames. Her first thought was for her children, whom she took from the flaming house in their night clothes. Returning, she tried to enter again and save her purse which was on a cabinet in the kitchen, but seeing that one of the children was trying to follow her, she was afraid to chance losing the youngster in the smoke filled rooms. A large crowd soon surrounded the flaming home which, fanned by a strong north-east wind, was soon a heap of ashes. The loss was partly covered by insurance.

Mr. and Mrs. Collicutt and family have taken up temporary residence in the rooms behind Mr. Collicutt's barber and confectionery shop.

OBITUARY

MRS. CUMMINS

On December 1st, at her home near Bonnie Glen, Sarah Elizabeth Cummins passed to her reward after a lingering illness. Born at Munrovia, Indiana, on December 14th, 1852, deceased was aged 78 years, 11 months and 16 days. At an early age she became a devout Christian and a member of the Methodist Church, to which she still belonged at the time of her death. On December 3rd, 1877 she became the bride of Thomas Cummins, and together they passed fifty-four years of their life's journey. Ten years ago her husband and life's companion was called on and since that time she has resided with her son at Bonnie Glen. About eighteen months ago after a serious illness, she became an invalid, yet her patient and kindly nature, and her steadfast Christian faith, proved an exemplary model to all who knew her.

Rev. H. G. Smith of Millet, conducted the service at the house and at the graveside, where he spoke kind and comforting words to the bereaved relatives and friends. Interment took place in the Wetaskiwin cemetery on Dec. 3rd. She leaves to mourn her loss five sons and one daughter, Ben, E. of Millet, Thos. H. of Bonnie Glen, Chas. S. of Cadogan, and Mrs. Wm. Carter of Edmonton, Franklin and Calvin W. of Union, Iowa, Fred L. and Mary Elizabeth Peters (deceased). Two brothers and three sisters living in the United States, nineteen grandchildren and sixteen great-grandchildren.

IN LOVING MEMORY

In loving memory of a kind friend, Mrs. Sarah Elizabeth Cummins. One by one we cross the river, Dark its waters ever flow; But there is a light eternal Shines for us who trust Him now. Oh, the blessed comfort of our Saviour. To He will we meekly bow. King of life, o'er death triumphant, May our joy in Him abound; Soon the graves shall hear His voice, And our loved ones all around, In the Kingdom of His grace, May they all with us be found. Written by a friend of the family since 1905. —J.E.

The poet said of the dreamer: Did you ever hear the tune, that a robin sang in June, in the winter when the ground was white with snow? Well, our local baseball boys must be dreaming of the green sward, for they held a meeting last Thursday evening to prepare for their 1932 season.

BY-ELECTION IN RED

DEER RIDING COST \$2,606.31

Red Deer's by-election held on Nov. 16 to fill the legislative seat left vacant by the death of G. W. Smith, United Farmers' of Alberta candidate and in which W. B. Payne, Conservative candidate was elected in a four-cornered fight, cost \$2,606.31, according to figures compiled on Thursday by John D. Hunt, chief electoral officer and clerk of the electoral council.

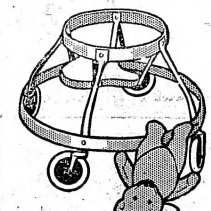

This figure, \$1,155 less than the cost of the Red Deer riding election as part of the provincial general election of June, 1930.

DOMINION TO BEAR 75 PER CENT IS PLAN

Expectation that the Dominion government soon will be paying 75 per cent of the total cost of Old Age Pensions and that the rest will be distributed between the provinces and municipalities, is expressed in advice received on Monday from Ottawa. Premier J. B. Brownlee, while in Ottawa toward the latter part of last week, discussed the matter with the Dominion and it is believed he completed the necessary arrangements on behalf of Alberta for the new agreement which will be necessary to validate the assumption of the increased burden by the Dominion.

Heretofore the Dominion has borne 50 per cent of the cost of this scheme.

TO OUR SUBSCRIBERS
There is a little matter which we would very much like to discuss with a number of subscribers. We dislike making direct reference to it in the news columns, but if you will look at the label on this copy of your paper, and then call at the office, we shall be glad to discuss it personally. Or perhaps you can find an opportunity to write us regarding this little matter. Thank you.
